

0. If the Decay Pipe Emergency Walkway needs to be secured, it will need to be done by before MI65 is secured and by 2 sets of Operators. The first set will sweep the Decay Pipe Emergency Walkway and the second set will reset the Interlock box after they have entered the area.
1. "A" secures stairs and resets SS#1 and waits.
2. "B" searches behind ventilation duct work, and the top of the Work Cell and resets SS #2
3. "B" searches the walkway up to the Strip Line Fence, then rejoins "A" on the other side.
4. "A" & "B" sweep to the upstream area of the Target Hall, then search the top of the AHU ledge.
5. "A" & "B" enter the labyrinth area and reset SS #3 and #4.
6. "A" & "B" walk upstream to the Hobbit Door and reset SS #5 in the Carrier Tunnel. "A" & "B" sweep the Carrier Tunnel.
7. "A" searches the Fire Safety Passageway tunnel.
8. "B" searches the Pre-Target and ascends the lookout platform ladder to view tops of drip shields and top of Fire Safety Passageway.
9. "B" rejoins "A" at the end of the Fire Safety Passageway. "A" & "B" sweep the labyrinth and reset SS #6
